SUMMER SCHOOL IN
APPLIED CHEMISTRY

SUMMER SCHOOL IN APPLIED CHEMISTRY

Join ITECH Lyon for an unforgettable **4-week experience** in the heart of Europe, combining **world-class education** with the charm of **Lyon** in summer.

WHO ARE WE?

ITECH Lyon is an engineering school specialized in polymer chemistry and its applications in the fields of **formulation chemistry, leather technology, plastic and textile materials**.

WHY CHOOSE US?

- **Top-tier education:** Dive deep into Polymer Chemistry and its applications.
- **Cultural immersion:** Enjoy guided excursions to explore Lyon's rich history and culture through guided tours of museums, historical landmarks, and hidden gems.
- **French language classes:** Develop essential language skills in a fun, interactive environment.
- **Industrial visits:** Get exclusive access to cutting-edge French companies and laboratories in our expertise sectors.

PROGRAM

Start the program by **meeting the team**, followed by a **French lunch** and an **intercultural session**.

 In Lyon  2,500 euros

 For students with a chemical background  Accommodation and local transportation included

 4-week program  9 ECTS

HANDS-ON LAB SESSIONS IN...

- Polymers and analytical chemistry
- Product formulation: cosmetics, adhesives, paints
- Plastic manufacturing
- Textile weaving and dyeing
- Leather tanning and coloring
- Colorimetry

FRENCH CLASSES

- Small groups for different levels
- Useful French for practical situations
- Real-life use during a session at the local market

OUTINGS DURING THE PROGRAM

- Visit of a winery and a chocolate factory (with tastings)
- A guided tour of a pharmaceutical and agricultural products company
- A behind-the-scenes tour of a cosmetics manufacturer

End the program with a **farewell dinner** and by receiving a transcript, as well as **life-long memories** and a desire to return to France.
